October 24th, 2019: Essential Reports for Administrators and District/School Goal Setting

Description: This training will show participants how to access, interpret, and apply key MAP Growth reports that school and district admins. can use for planning and helping school teams interpret and apply data.

Primary Audience: District/school leaders and staff members responsible for curriculum, instruction and assessment

January 23, 2020: Informing Instruction / Differentiating Instruction using MAP Growth Reports and Designing Instructional Ladders

Description: This full day training will include Differentiating Instruction: building a shared understanding of differentiated instruction, using MAP Growth reports to gauge student readiness, and identifying instructional resources to use to target diverse learning needs.

Primary Audience: Teachers, teacher leaders, instructional coaches and staff members responsible for curriculum, instruction and assessment

Secondary Audience: District/school leaders (it is recommended that principals attend with teacher leaders if possible)

May 7, 2020: Featured User Group and Student Goal Setting and Growth - Featuring Lighthouse Districts

Description: Districts will share innovative strategies related to using MAP data to promote student achievement. Schools will share resources, ideas and problem solve challenges together. Student growth data will also be interpreted using ASG reports.

Audience: District/school leaders, teachers, teacher leaders, instructional coaches and staff members responsible for curriculum, instruction and assessment
