

Boot Camp for Special Educators

**Join your fellow special educators for a day of learning and networking!
Select from the below training titles and topics:**

How to Write a SMARTIE IEP Goal - In this professional development, you will learn how to write IEP goals that are Specific, Measurable, Action-Oriented, Result-Oriented, Timed and Tracked, Inclusive and Equitable. You will learn how to write IEP goals that will reflect students' needs and drive instruction for student success.

How to Run a Great IEP Meeting - In this professional development, you will learn how to run an effective IEP meeting that can make a significant impact in the lives of the families and students and create opportunities to shape students' educational futures and chances of success.

How to Collaborate with Colleagues in Your Building - In this professional development, you will learn the different roles that members of the IEP team play in the education of a student with a disability and various strategies to ensure that the team collaborates together to maximize opportunities for student success.

Overview of FBA and BIP - In this professional development, you will learn best practices for the process of a FBA and how it informs the creation of an effective BIP. You will learn how to write an effective BIP that will support the students in all educational environments.

Different Perspective of Behavior - In this professional development, you will increase your understanding of behavior and why students may misbehave or even go into crisis. You will learn different strategies to manage challenging behaviors in the school environment.

Overview of Co-teaching - In this professional development, you will increase your understanding of best practices of co-teaching to support all students in the classroom. You will learn about strategies to increase collaboration between special education and general education teachers to create an effective co-taught classroom.

Accommodations vs. Modifications - In this professional development, you will learn the differences between accommodations and modifications and when they need to be applied in an IEP. You will learn how to match appropriate accommodations and/or modifications to meet the needs of the student with disability.

Differentiation and Inclusive Practices - In this professional development, you will learn various strategies and practices that you can apply to your classroom to increase opportunities for your students.

How to Communicate Effectively with Families - In this professional development, you will learn strategies to effectively communicate with the families or caregivers of your students. You will learn strategies for approaching difficult conversations and how to increase collaboration with families and caregivers to support student success.
